Specification

GEDDES SQUARE, CHAPELTON, AB39 8BB

Indicative Elevations

See following specification overview:

- **Main Structure:** The main structure is a steel frame on the ground floor with a concrete slab creating a separating floor between the commercial unit and the residential properties above. The access to the commercial unit is independent from the access to the residential properties. The external walls are constructed of timber panels spanning between the steel structure with cavity and blockwork external leaf. The external walls will be taped and filled to provide fire protection to the structure.
- **External Walls:** Timber kit infill panels, cavity blockwork finished with render.
- **Floor Construction:** Ground floor reinforced concrete slab, first floor separating concrete slab between the residential flats
- **Roof:** Natural slates on breather membrane on sarking boards. Samifil to flat roof areas. Zinc ridge and lead flashings elsewhere. Aluclad gutters and downpipes to street frontage elevations, PVC elsewhere.
- **Windows and Doors:** High performance timber windows and doors.
- **Thermal performance:** Available on request

On handover of the shell, a completion certificate will provide for the shell only.

ANTI MONEY LAUNDERING REGULATIONS

The Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017 came into force on the 26th June 2017. This now requires us to conduct due diligence not only on our client but also on any purchasers or occupiers. Once an offer has been accepted, the prospective purchaser(s)/occupier(s) will need to provide, as a minimum, proof of identity and residence and proof of funds for the purchase, before the transaction can proceed.
